

DQT Integrated Ecosystem Whitepaper

Gaming × Beauty × DeFi Convergence for a Utility-Driven Web3 Economy

Dream Exchange Market (DEX), DQT token, and Beauty Clinic NFTs

Version 1.0 | Issued: Nov 18, 2025

Table of Contents

DQT Integrated Ecosystem Whitepaper

This whitepaper presents a comprehensive overview of the DQT Integrated Ecosystem, featuring the convergence of Gaming, Beauty, and DeFi sectors.

The following sections detail our innovative Web3 model, tokenomics, technical architecture, and strategic roadmap for investors and partners.

1

Executive Summary(Vision & Value Proposition)

2

Market Analysis
(Problems, Opportunities, Competition)

3

Technical Architecture
(Blockchain, Exchange, NFT)

4

Tokenomics(Distribution, Utility, Burns)

5

Business Model & Operations
(Migration, Revenue)

6

Roadmap & Growth(Timeline, Projections)

7

Governance & Legal(Team, Risks, Compliance)

8

Conclusion(Investment Opportunities)

Executive Summary

DQT is primarily an international remittance platform with integrated Gaming and Beauty services, creating value through low-cost cross-border payments and sustainable tokenomics.

International Remittance: Ultra-low fee cross-border transfers supporting 8 currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND)

Licensed Operation: Cambodian Digital Asset Association license (ED342EDTR-12) for legal crypto-fiat transfers

Tokenomics: 10B total supply, 1B initial sale, fixed price 1 USDT = 1 DQT for stability and trust

Launch Schedule: DEX launch Nov 30, 2025; Remittance system launch Dec 20, 2025

International Remittance PRIMARY

8-currency support with ultra-low fees, licensed operations in Cambodia (ED342EDTR-12), and instant cross-border transfers

Gaming MGT Integration

MGT legacy integration as key acquisition channel, providing gaming rewards and payment options

Beauty

NFT membership to clinic services with discounts, cashbacks, and real-world utility

Unified through DQT Token (10B supply)

Problem Statement

Current market challenges that DQT Ecosystem aims to solve:

PRIMARY: International Remittance Issues

High Transaction Fees

Traditional international money transfers charge 5-10% in fees, costing global consumers \$50B+ annually.

Complex Procedures

Excessive paperwork, verification steps and in-person requirements create significant friction.

Time-Consuming Process

Transfers across 8 major currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND) typically take 2-5 business days.

SECONDARY: Crypto Market Issues

Gaming Integration

MGT legacy systems need modernization and cross-platform compatibility.

Beauty Market NFTs

Traditional beauty services lack digital ownership and membership

✓ How DQT Addresses These Issues

Ultra-Low Fee Remittance System

DQT reduces international transfer fees by up to 90% using blockchain technology and Cambodian license (ED342EDTR-12).

Simplified 8-Currency Support

Seamless transfers between AUD/USD/GBP/EUR/KRW/CNY/IDR/VND with minimal verification requirements.

Same-Day Settlement

DQT's internal routing system enables near-instant transfers, with fiat settlements typically in minutes instead of days.

Complementary Ecosystem

MGT gaming integration and beauty NFTs provide additional utility and strategic user acquisition channels.

DQT revolutionizes cross-border payments while creating a complete ecosystem with gaming and beauty integrations.

Market Opportunity

DQT strategically targets the massive international remittance market as its PRIMARY focus, while leveraging secondary markets in gaming and beauty to create a comprehensive ecosystem with multiple revenue streams.

International Remittance (PRIMARY)

\$700B+ global market with high fees, complexity & delays

8-Currency Support

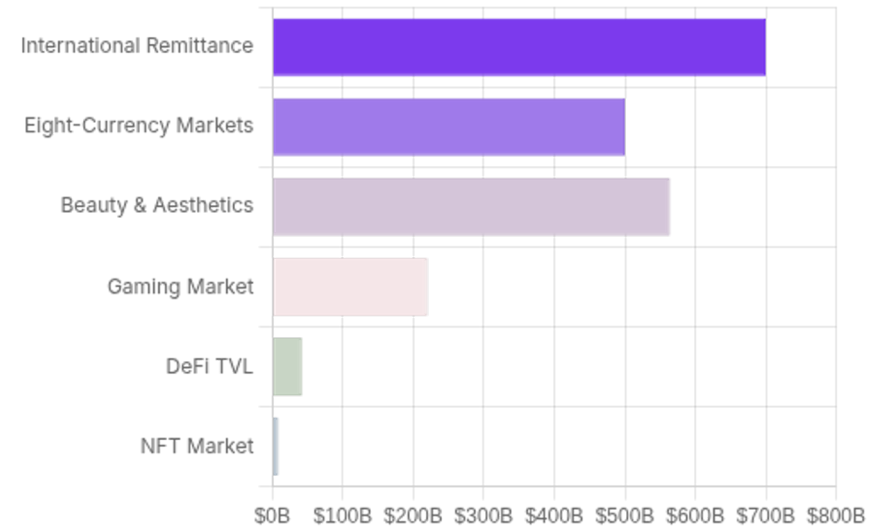

AUD/USD/GBP/EUR/KRW/CNY/IDR/VND markets - \$500B+ flow

Gaming & Beauty (SECONDARY)

MGT integration as key marketing channel; NFT utility

Global Market Size (2025)

Competitive Landscape

How DQT compares to major international remittance services

Criteria	DQT Integrated	Ripple (XRP)	Stellar (XLM)	Wise (TransferWise)
Transaction Fees	✔ Ultra-low (up to 90% less than traditional)	✔ Low (0.00001 XRP)	✔ Low (0.00001 XLM)	✖ Medium (0.4-2% + fixed fee)
Currency Support	✔ Currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND)	✔ Multiple but varies by partner	✔ Multiple but varies by anchor	✔ 50+ currencies
Regulatory Compliance	✔ Licensed in Cambodia (ED342EDTR-12)	✔ Varies by region, ongoing litigation	✔ Depends on anchors	✔ Licensed in multiple regions
Settlement Time	✔ Near instant (blockchain-based)	✔ 3-5 seconds	✔ 3-5 seconds	✖ 1-2 business days
Additional Utility	✔ DEX + Gaming (MGT) + Beauty NFTs	✔ Limited to payment/bridge	✔ Limited to payment/token issuance	✖ None (traditional fintech)
User Access	✔ Wallet-to-wallet & wallet-to-bank	✖ Through financial institutions	✔ Through anchors/partners	✔ Direct consumer access

Solution Overview

The DQT Integrated Ecosystem's primary focus is revolutionizing international remittance with ultra-low fees across 8 major currencies, powered by our Cambodian financial license (ED342EDTR-12).

As an auxiliary coin within the cryptocurrency ecosystem, DQT facilitates seamless cross-border transfers, automatically converting between currencies at the day's exchange rate with minimal processing time.

Complementing our core remittance service, DQT integrates Gaming (MGT migration) and Beauty NFTs as secondary value drivers to create a comprehensive Web3 ecosystem.

8-Currency Remittance System

Supports AUD/USD/GBP/EUR/KRW/CNY/IDR/VND with automated conversion through licensed financial channels in Cambodia

Ultra-Low Fee Structure

Up to 90% lower fees than traditional remittance services, with DQT operating as an auxiliary processing coin between currencies

MGT Gaming Integration

Strategic MGT migration serves as a key audience acquisition channel while providing secondary utility in the gaming sector

Beauty NFT Ecosystem

Supplementary real-world utility through beauty clinic subscriptions, creating additional demand and value flows for DQT

Blockchain Infrastructure

DQT employs a multi-chain architecture to optimize for security, cost, and scalability while maximizing user reach.

Ethereum

Primary chain for security and institutional trust. ERC-20 standard with enhanced security features.

Binance Smart Chain (BSC)

Low-cost transactions for high-frequency trading and gaming interactions. BEP-20 standard.

Polygon

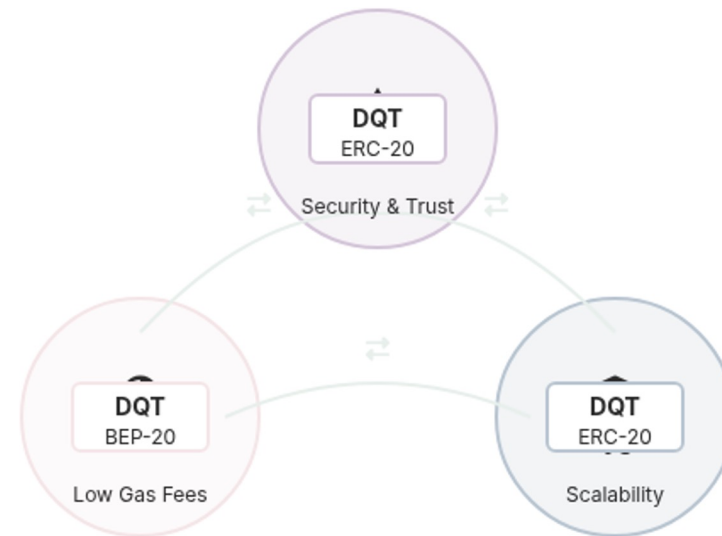

Scalability layer for high throughput and low latency. ERC-20 standard with Polygon extensions.

Cross-Chain Bridges

Secure bridging infrastructure for seamless token transfers between chains.

Multi-Chain Architecture

- Identical token contract logic across chains
- Automatic liquidity management between chains
- Users choose optimal chain for their needs

● Ethereum ● BSC ● Polygon ● Cross-Chain Bridge

Smart Contract Design

DQT's infrastructure leverages secure, auditable smart contracts across multiple blockchains to ensure seamless token flows and operations.

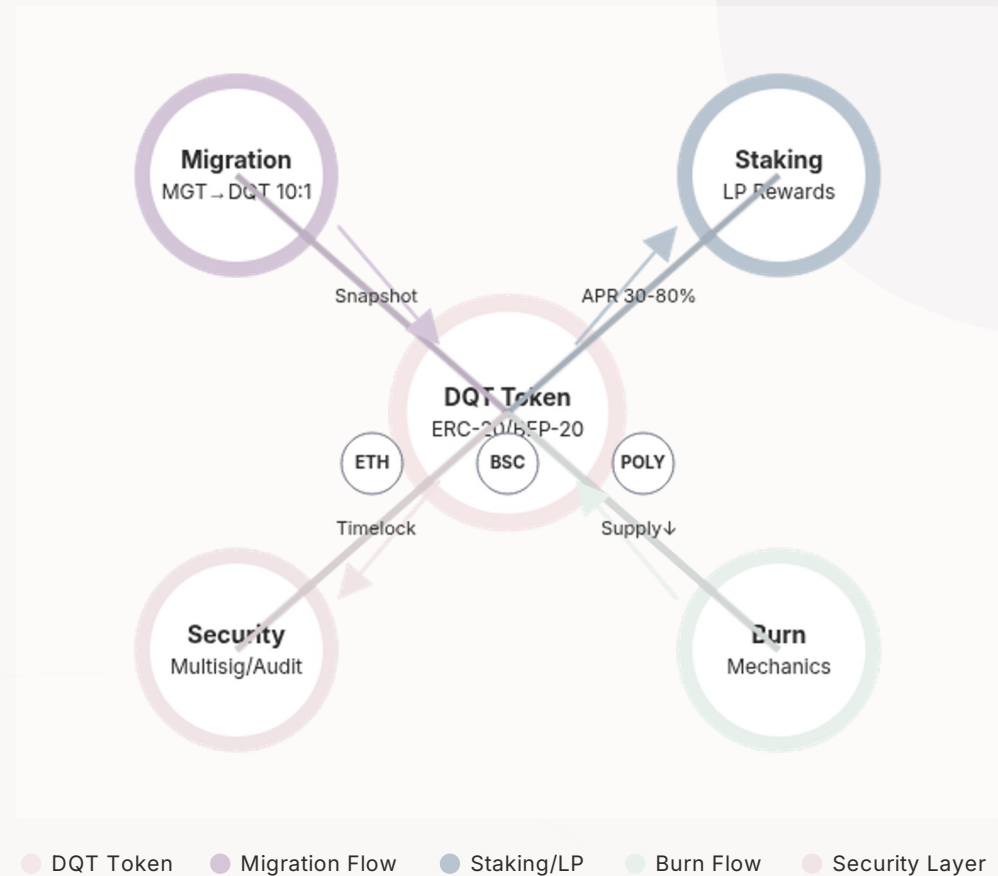

DQT Token (ERC-20/BEP-20)
Supply: 40B tokens, cross-chain deployment with mintable/burnable capabilities and governance features

Migration Contract
MGT → DQT at 10:1 ratio with automated conversion and claim mechanisms

Staking & LP Incentives
Adjustable APR (30-80%), time-based rewards and loyalty tiers

Burn Mechanics
Fee-burn, service-burn, and quarterly burn triggered by smart contract rules

Security Measures
Multisig operations, time-locks for critical functions, and third-party audit integration

Dream Exchange Market

Next-generation DEX with integrated international money transfer system across 8 currencies, launching Nov 30, 2025 (DEX) and Dec 20, 2025 (Remittance).

 International Remittance: Ultra-low fee money transfers supporting 8 currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND) with up to 90% lower fees than traditional services

 Bank API Integration: Direct connections to banking networks with Cambodia license (ED342EDTR-12) for seamless fiat-crypto bridging

 DQT Auxiliary Coin: Functions as internal settlement token within the remittance system, enabling cross-currency conversions with minimal slippage

 AMM Pools & Fee Tiers: Multi-chain liquidity pools with tiered structure (0.05% - 0.3%) optimized for different trading pairs and volatility

Dream Exchange Core

Launch Timeline

DEX: Nov 30, 2025

Remittance: Dec 20, 2025

Beauty Clinic NFT Technical Design

NFT membership smart contracts enabling real-world utility through beauty clinic services with integrated DQT token mechanisms.

Subscription Model: 8-year membership with digital proof of ownership; transferable with service rights

Multi-Currency Support: JPY, USD, BTC, ETH, USDT with 5-10% discount when paying in DQT

Staking Incentives: Exclusive high-APR staking pools for NFT holders; 2-5% DQT cashback on services

Burn Mechanism: 10% of DQT used for services is burned; portion of clinic profits distributed to holders

Standard NFT

¥500,000

Basic services package with standard benefits

Premium NFT

¥1,000,000

Enhanced services with priority booking

VIP NFT

¥2,000,000

Exclusive access to all services and events

8-Year Subscription Timeline

- Year 1-3: Full membership benefits
- Year 4-5: Priority booking + exclusive events
- Year 6-8: Premium services + legacy benefits

Supported Payment Methods

JPY

USD

BTC

ETH

USDT

DQT (5-10% discount)

Ecosystem Integration & Token Flow

The DQT Integrated Ecosystem creates a closed-loop token economy that connects multiple services and aligns token value with real-world utility.

Exchange Mechanism

Trading fee discounts drive DQT demand, with 20% of fees burned monthly

Beauty NFT Utility

DQT payments receive 5-10% discount with 10% of transaction value burned

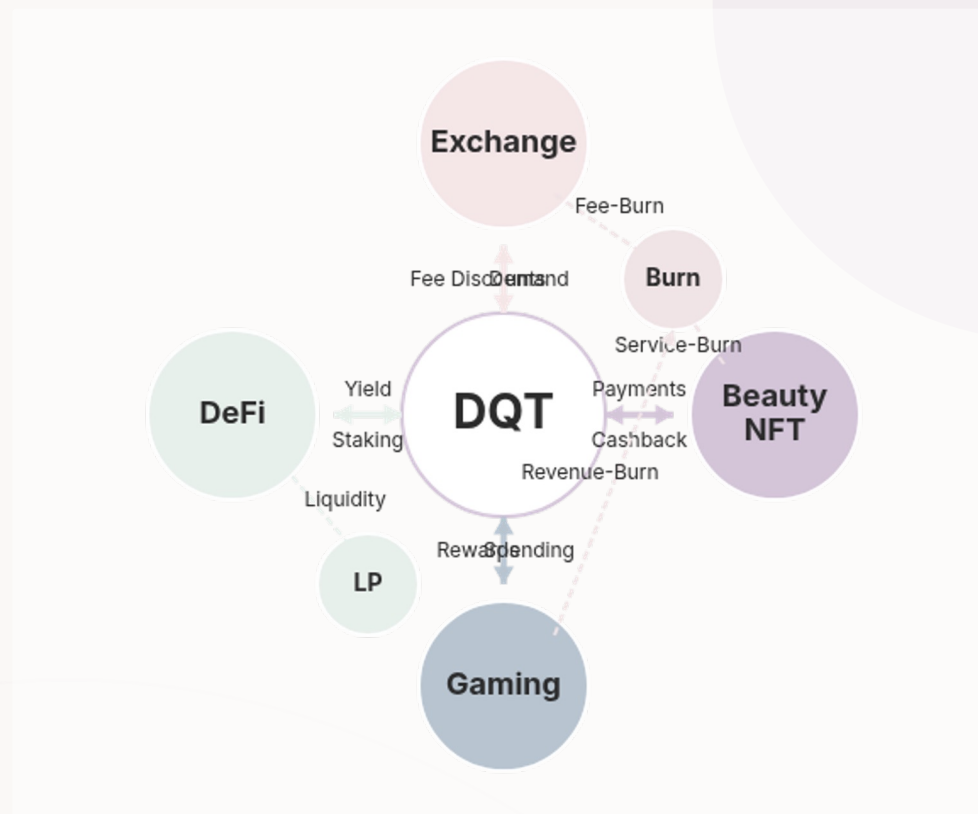

Gaming Integration

In-game spending generates revenue that feeds back into burns and LP rewards

DeFi Incentives

Staking and LP participation drive holding incentives and deepen liquidity

● Exchange Flow ● Beauty NFT Flow ● Gaming Flow ● DeFi Flow ● Burn Process

Token Overview — DQT Specifications

Core specifications and features of the Dream Exchange Token (DQT)

Specification	Detail
Token Name	Dream Exchange Token
Ticker	DQT
Total Supply	10,000,000,000 (10 billion)
Initial Sale	1,000,000,000 (1 billion, 10% of total supply)
Token Price	1 USDT = 1 DQT
Chains	Ethereum, BSC (Binance Smart Chain), Polygon
Standards	ERC-20 (Ethereum, Polygon), BEP-20 (BSC)
Key Features	Exchange fee discounts (up to 50%) Staking rewards (APR 30-80%) Governance voting rights Gaming platform integration Beauty NFT payments (5-10% discount) Service usage cashback (2-5%) International remittance facilitation

Token Distribution

Total Supply: 10,000,000,000 DQT

Distributed across multiple stakeholders with strategic vesting schedules

Price: 1 USDT = 1 DQT for initial token offering

Initial Sale (10% = 1B DQT)

Public offering at 1 USDT = 1 DQT pricing

Immediate utility for international remittance services

Team & Investors (50% = 5B DQT)

Team: 4-year vesting with 1-year cliff

Seed Investors: 2-year vesting with 6-month cliff

Strategic Partners: 2-year vesting

Liquidity (30% = 3B DQT)

DEX Liquidity: 15% (1.5B DQT)

Dream Exchange Market: 10% (1B DQT)

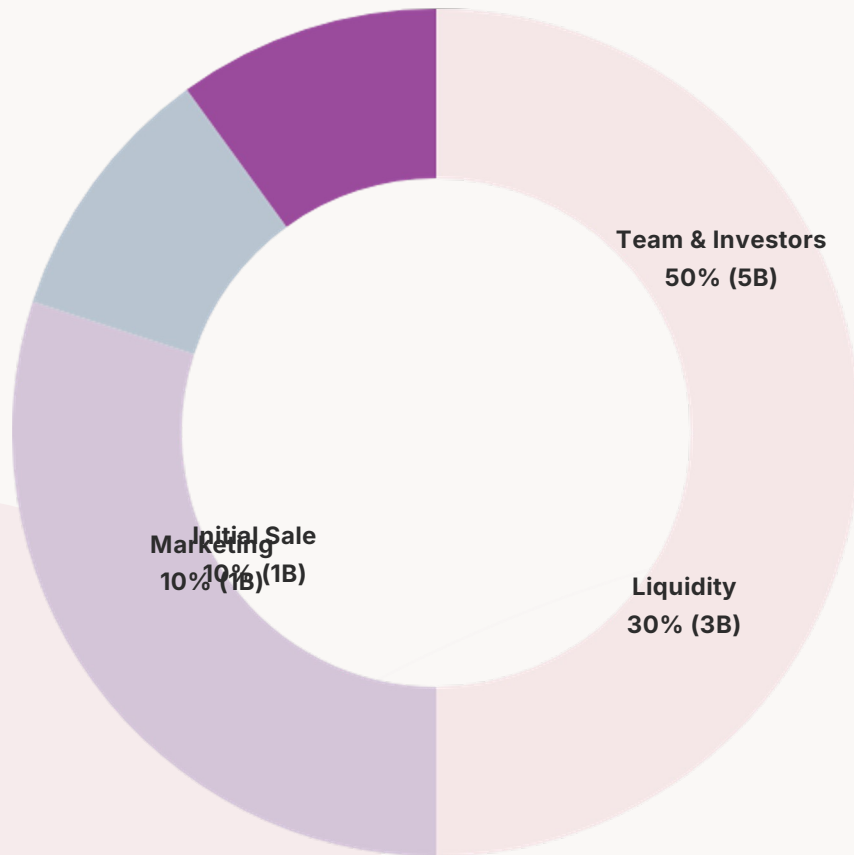

International Remittance Reserves: 5% (0.5B DQT)

Marketing & Community (10% = 1B DQT)

Airdrops: 3% (0.3B DQT)

Community Rewards: 4% (0.4B DQT)

Marketing Campaigns: 3% (0.3B DQT)

Token Utility — Real Usage Drivers

DQT's primary focus on international remittance with supporting utilities across multiple sectors

Use Case	Description	Incentive/Benefit	Burn Link
International RemittancePRIMARY	Ultra-low fee cross-border money transfers using DQT as an intermediary token between 8 supported currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND)	Up to 90% lower fees than traditional remittance services	 15% of remittance fees burned quarterly
Exchange Fee DiscountsSecondary	Reduced trading fees on Dream Exchange Market based on DQT holdings, launching Nov 30, 2025	Up to 50% discount on all trades (0.1% → 0.05%)	 20% of fees burned monthly
Gaming IntegrationSecondary	MGT integration for in-game purchases, upgrades and exclusive content for the gaming community	Rewards and XP bonuses for DQT users	 Portion of gaming revenue burned
Beauty NFT PaymentsSecondary	Purchase and redeem beauty clinic membership NFTs with DQT	5-10% discount on NFT purchases	 10% of beauty payments burned
Staking	Lock DQT tokens in staking contracts to earn passive rewards	APR 30-80% depending on lock duration	 Rewards from treasury allocation

Burn Mechanisms & Supply Projection

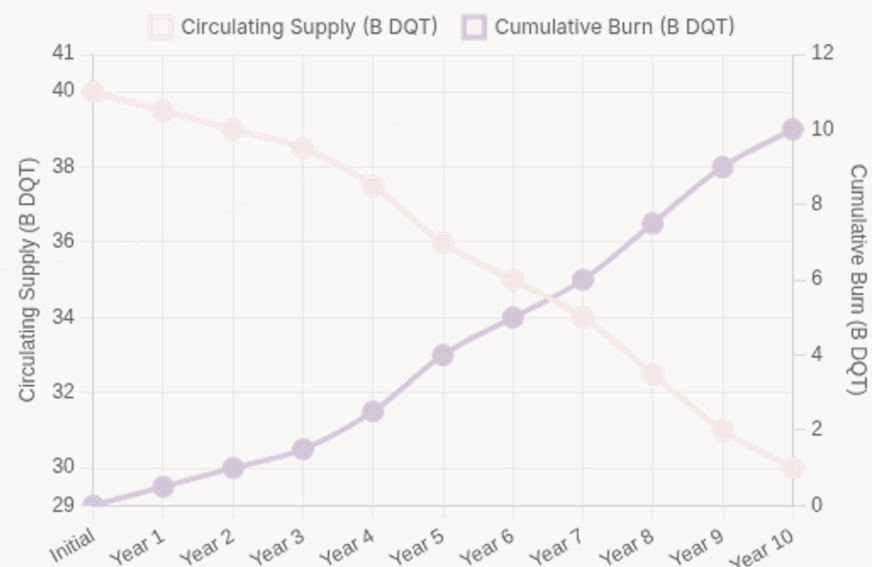

DQT implements multiple burn mechanisms to systematically reduce token supply and enhance long-term value stability.

-  Fee-burn: 20% of trading fees (monthly collection)
-  Beauty service-burn: 10% of DQT payments at clinics
-  Quarterly burn: Portion of operational profits

Burn Projections:

- Year 1: ≈ 0.5 B DQT (1.25% of total supply)
- Year 5: ≈ 4.0 B DQT accumulated (10% of supply)
- Year 10: ≈ 10.0 B DQT accumulated (25% of supply)

** Projections may vary based on market conditions, regulatory developments, and adoption rates*

MGT→DQT Migration Plan

Strategic integration to support our primary international remittance business

🎯 Strategic Positioning

MGT serves as a critical customer acquisition keyword for the DQT ecosystem, driving targeted traffic from the established gaming community. While international remittance is our primary business focus with 8-currency support, MGT integration creates a complementary revenue stream as a strategic sub-business.

Customer Acquisition

Gaming Sub-Business

Supports Primary Remittance

Phase	Timeline	Action	Lockup & Strategic Purpose
Announcement	D-30	Public announcement of ratio (10:1), migration process, and FAQ publication	No lockup at this stageBegins customer acquisition
Snapshot	D-7	Record of all MGT holdings and wallet addresses for migration eligibility	No lockup at this stageSecures gaming community
Launch	D-day	Dream Exchange Market opens with automatic MGT→DQT conversion	0-3 months: 0% unlock (complete lockup)Stabilizes market for remittance launch
Completion	D+30	All MGT converted to DQT and liquidity pools fully established	3-6 months: 5% unlockSupports DEX-only phase

DQT Business Model

A multi-revenue approach centered on international remittance with supplementary DeFi, beauty, and gaming services.

-  **PRIMARY:** Global Remittance Fees - Ultra-low cost international transfers across 8 currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND) with up to 90% lower fees than traditional services
-  **SECONDARY:** Exchange Revenues - Trading fees (0.1% base, discounted to 0.05% with DQT holdings), listing services, and market making spreads from DreamExchange Market (Nov 30, 2025)
-  **SECONDARY:** Gaming & NFT - MGT integration (key marketing channel) driving user acquisition, beauty clinic NFT subscriptions generating recurring revenue and real-world utility
-  **Cambodian License (ED342EDTR-12):**

Gaming Integration

From MGT legacy to advanced Web3 gaming partnerships, DQT creates a seamless bridge between traditional gaming and blockchain utility.

-  **In-Game Currency:** DQT functions as payment for in-game items, power-ups, and exclusive content, creating natural demand
-  **Partner Studios:** Integration with both established game developers and emerging Web3 gaming platforms
-  **Revenue Model:** 5% of all gaming revenue directed to burns, 3% to LP rewards, creating sustainable demand pressure
-  **Compliance:** Adherence to regional gaming regulations and fair play policies, with transparency at the core

MGT Legacy

Japan's first online slot & gaming token with established user base and infrastructure

Migration & Expansion

10:1 token conversion with enhanced utility, character upgrades, and special events system

Web3 Gaming Ecosystem

Cross-game tournaments, NFT interoperability, multi-game DQT utility across partner platforms

Implementation Roadmap

International Remittance-First Strategy

A structured approach to building our ecosystem with international remittance as the primary focus, complemented by DeFi exchange, gaming integration, and beauty NFTs.

Key Launch Dates:

DEX Launch: November 30, 2025

Remittance System: December 20, 2025

Phase 1: Foundation (Nov-Dec 2025)

DEX Launch Remittance System

Launch DEX platform and establish core infrastructure for the 8-currency remittance system. Initial liquidity for DEX operations while finalizing remittance partnerships.

PRIMARY Goal: Launch international remittance system supporting 8 currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND).

SUB-Goal: Complete MGT integration and establish DEX functionality.

SUB-Goal: Onboard initial beauty clinic NFT partners.

Phase 2: Growth (Q1-Q2 2026)

Remittance Expansion 5 Additional Currencies

Expand remittance system to additional currencies and territories. Increase transaction volumes and further reduce fees. Begin marketing campaigns targeting international users.

Goal: Achieve \$10M+ monthly remittance volume; expand to 5 additional currencies.

Phase 3: Maturity (Q3 2026+)

Self-sustaining ecosystem Fully integrated

Financial Projections

International remittance fees drive DQT's primary revenue stream with 10B total supply and strategic token burn mechanisms.

International Remittance

PRIMARY revenue source: 8 currency support with up to 90% lower fees than traditional services

Burn Scenarios

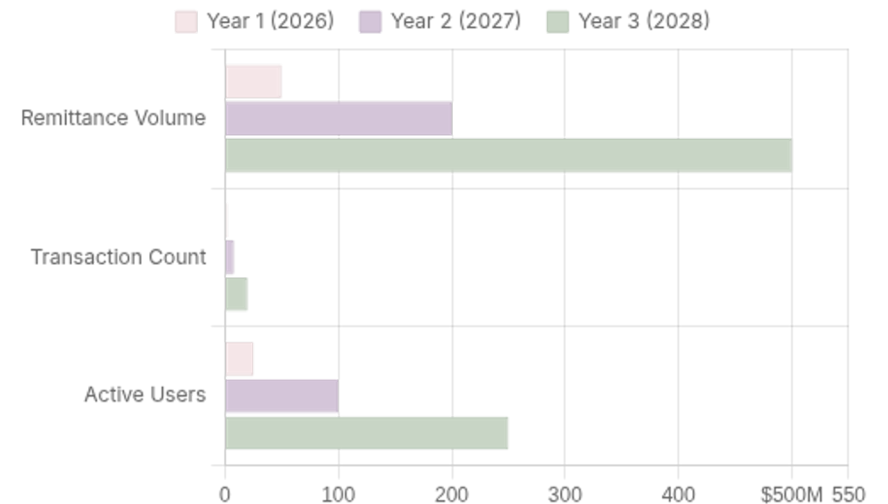

Year 1: 0.1B DQT, Year 5: 0.8B DQT, Year 10: 2.0B DQT (20% of total supply)

Secondary Revenue

DEX fees, beauty NFT sales, and MGT gaming integration provide diversified income streams

International Remittance Growth Projection

Key Milestones

International Remittance Focus

International remittance is our primary business focus, with gaming and beauty services as strategic supplementary offerings. Our Cambodian license (ED342EDTR-12) gives us a regulatory advantage in the remittance market.

Phase 1: Launch (Q4 2025)

November 30, 2025: Dream Exchange Market launch
December 20, 2025: International Remittance System activation
MGT migration process as strategic user acquisition
Initial supported currencies: USD, EUR, AUD, GBP

↔ Remittance Launch

\$ Multi-Currency

⚙ MGT Migration

Phase 2: Expansion (Q1-Q2 2026)

Additional currency support: KRW, CNY, IDR, VND
Cross-border remittance partnerships
Fee reduction implementation (up to 90% vs traditional)
Beauty NFT subscription as supplementary service

🌐 Asian Currencies

% Fee Reduction

🎮 Beauty NFT

Phase 3: Growth (Q3 2026+)

Major banking partnerships for direct fiat off-ramp
Cambodian license expansion to additional regions
Business remittance solutions
Gaming ecosystem and loyalty program integration

🏦 Bank Partners

💼 Business Solutions

🎮 Gaming Integration

Team & Partners

The leadership, advisors, and partners behind the DQT Integrated Ecosystem

Name/Entity	Role	Background	Focus Area
👥 Executive Team			
Takashi Yamada	Chief Executive Officer	15+ years in fintech and blockchain ventures	Business Strategy & Partnerships
Mei Nakamura	Chief Technology Officer	Former lead developer at major crypto exchange	Technical Architecture & Security
Kenji Suzuki	Chief Operations Officer	Regulatory compliance specialist in Asian markets	Operations & Compliance
💡 Advisory Board			
Dr. Alex Chen	Blockchain Advisor	PhD in Cryptography, 3 successful DeFi projects	DeFi architecture & protocol design
Yumi Tanaka	Beauty Industry Advisor	Owner of premium clinic network, Web3 enthusiast	Clinic partnerships & NFT implementation

Risk Analysis & Mitigation

Comprehensive risk assessment with strategic mitigation approaches

Risk	Category	Likelihood	Impact	Mitigation Strategy
Market Volatility	Market	High	High	Diversified utility across sectors (exchange, beauty, gaming) + multi-layer burn mechanisms to reduce speculation and stabilize token value
Smart Contract Bugs	Technical	Medium	Critical	Multi-phase security audits by reputable firms + bug bounty program + tiered deployment with incremental exposure
Regulatory Changes	Regulatory	Medium	High	Proactive compliance monitoring across key jurisdictions + dedicated legal advisors + adaptable token utility framework
Liquidity Shortfalls	Operational	Low	High	Three-phase liquidity mining program + strategic reserve funds + multi-chain deployment to diversify liquidity sources
Partner Dependencies	Operational	Medium	Medium	Multiple clinic partnerships across regions + diversified revenue streams + robust contractual arrangements
Competition	Market	High	Medium	Real-world utility differentiation through beauty clinic integration + continuous innovation roadmap + first-mover advantage in sector convergence

Legal & Compliance

DQT operates with a comprehensive legal and regulatory framework, with established licensing in Cambodia through DreamExchange3 LTD, ensuring compliance while protecting users across 8 supported currencies.

Cambodia License: ED342EDTR-12

Licensed Entity: DreamExchange3 LTD in Cambodia, registered with the Cambodian Digital Asset Association, providing legal foundation for global operations

Multi-Currency Compliance: Specialized regulatory frameworks for all 8 supported currencies (AUD/USD/GBP/EUR/KRW/CNY/IDR/VND) with country-specific compliance measures

KYC/AML Policies: Tiered verification system with enhanced due diligence for international remittances, automated transaction monitoring across all supported currencies

Cambodian Licensing

Licensed through the Cambodian Digital Asset Association with License #ED342EDTR-12, allowing both cryptocurrency and fiat currency operations with full legal protection.

International Remittance Framework

Comprehensive regulatory compliance for all 8 supported currencies with specialized AML/KYC procedures tailored to each jurisdiction's requirements.

Security & Compliance

Multi-layered security approach with enhanced transaction monitoring for cross-border payments, suspicious activity reporting, and automated compliance checks.

DreamExchange3 LTD Structure

Investment Opportunity

Why invest in DQT now? Our integrated ecosystem offers unique advantages that position us for sustainable growth in the evolving Web3 landscape.

Real-World Utility: Beauty clinic subscriptions bridge Web2 users to Web3, with tangible service value backing NFTs and multiple revenue streams beyond speculation

DeFi Yield Opportunities: Staking APR 30-80%, LP rewards in liquidity mining phases, and fee-sharing mechanisms create substantial yield potential

Disciplined Supply Management: Multi-layer burn mechanisms, predictable supply reduction trajectory, and lockup schedules prevent dump risks

Clear Growth Path: Phased roadmap with measurable milestones, CEX listing targets (Binance/Coinbase), and international expansion strategy

Exchange-First Distribution

User-friendly DEX onboarding with multi-wallet compatibility and security-first architecture lowers the barrier to entry for new users and facilitates broader token adoption.

Market Timing

Unique convergence of Gaming, Beauty, and DeFi trends positions DQT at the forefront of growing demand for utility tokens and increasing institutional interest in tokenized real-world assets.

Strategic Partnerships

Established relationships with beauty clinic networks provide immediate utility and revenue, creating a sustainable foundation for ecosystem growth and token value appreciation.

Execution-Ready Team

Our experienced team brings together expertise in blockchain development, beauty industry operations, and financial markets to deliver on our ambitious roadmap milestones.
